FROM WASHINGTON.

Land Warrants Business of the General Land Office Uniformia Judgeship. Correspondence of The Tribuse. Wallington, Friday, Oct. II.

The Secretary of the laterior has about completed the necessary arrangements to enable his Department to commence issuing the cert destes of Warrants to all these who are entitled to the benefits of the Act of Congress of Sep'4, 28, 1850. and who had been in the military service of the United States. Instead of leaulng printed certifi cates as under the Mexican Bounty Law, and which were readily counterfeited, the Secretary has wisely determined to have them engraved and in a manner that will effectually goard against

fixeds of this kind. It required shree different plates, one for 160 nores, another for 20 acres, and the third for 40 nores; as under the privisions of the iste law there are three clates of claimatt, entitled respectively to the above different quantities of land. These plates were at once put into the hands of two of the most extensive engraving firms in the City of Poiladelphia, and will be ready for use in the whole of next week.

In order to carry out the pledge in his circular to the country, the Secretary of the faterior will organize a new division in the General Land Office, composed of an iscreased clerical force, whose exclusive province it shall be to issue the Patents upon the new warrants that are located, as fast as they are returned to the General Land Office. This will do no injustice to those who have located Mexican Bounty Land Warraots, as the same force that is now at work in patenting them will be continued without diminution. While the effect will be to make the Warrants under the late law more valuable than those under the old law; and for the star areas and continued without diminution. While the effect will be to make the Warrants under the late law more valuable than those under the late law of the foreign and the treasures of our caustry.

Col. G. has in him the elements of an extensive custom for the treasures of our caustry.

Col. G. has in him the elements of our caustry.

Co effect will be to make the Warrants under the late law more valuable than those under the old law; and for this reason, as I showed in a former letter, there are now about forly thousand Warrants in the Land Office that have been returned, and are ready for being patented. It will require fifteen menths with the present force to patent them, so that no Warrant subsequently located can be patented under eighteen months or two years. These that are located under this last act of Congress will be catented as fast as they are returned. These that are located under this last set of Gongress will be patented as fast as they are returned to she General Land Office, if the Secretary of the Interior carries out his present purposes. So that the person entitled to a patent under the last law will get it from one to two years assone than those who have located lands with Warrants under the old law. Although there may apparently be an inconsistency and injustice in this, yet, when rightly understood, there is in fact none.

Under the late act, the Boldier cannot derive any benefit from the bounty awarded him by Congress

Under the late act, the Soldier cannot decive any benefit from the bounty swarded him by Congress until after the Patent has been acteally issued by the Government; while under the previous act, the moment a soldier who served in the Maximum War gets his Certificate or Warrant, he cansel it. This, in nine of ten instances is done; so that the question of priority in the issuing of a Patent, will be, be tween the Speculator upon the necessities of the Soldier in the one instance and the Solvier himself in the last instance. And from the course already taken by the President and the Solvietary of the Interior, there can be no doubt, but what all the action and sympathics of the Administration will be with the soldiers, and not with the speculators. I am thus explicit in this matter, to counteract the false impression gotten up in a certain quarter, for the purpose of enhancing the market value of Mexican Bounty Land Warrants, that under the late. Act of Congress, it will require some two years before a party interested can avail himself of the benefits of the Act. The Secretary of the Interior in his circular, which was fully sanctioned by the President, has given a pledge that the soldier shail not be delayed in realizing the advantages of the law nased for his benefit; and that pladge will be law nased for his benefit; and that pladge will be law nased for his benefit; and that pladge will be not be delayed in realizing the advantages of the law passed for his benefit; and that pledge will be redeemed to the country, whether it will take ten or fifty additional clerks to do it.

There is a good deal of solicitude felt on the part

of Mr. GRAHAM as to the success of his appli-cation for the Judgeship of California; and although cation for the Judgeship of California, and although his testimonials as to his legal qualifications are of the highest order, still, there are political considerations which may reluctantly compel the President to bestow the appointment somewhere else. In the event of Dr. Footte returning from Bogota, it is by no means improbable that the Hon. John C. CLARKE will take his place; in which event John A. Collers, Esquay be offered and doubless would accept the Solicitorship of the Treasury.—Mr. CLARKE's health is by no means good, and a place of the character of that illed at present by Dr. Foote, would be nightly beneficial to him, while no more competent gentleman could be selected as the successor to Dr. Foote.

no more competent gentleman could be as the nuccessor to Dr. Foote.

I learn, that in consequence of the increasing indisposition of Col. McClaskan, who is at the head of the Astronomical Corps connected with the Mexcan Boundary Survey, it has been found necessary to relieve him from duty, and that his place will in all probability be filled by Col. Graham of the Army.

A New-Yorker.

ITALY.

The Quarrel between Rome and Pledmont. Tunin, Thursday, Sept. 19.
To the Editors of the New-York Tribune:

I have nothing decisive to announce to you with regard to the pending difficulty between this Government and the Roman Church. The only fact is that Pinelli has not yet returned from Rome. though he was said to be repelled by the Pope, and an official audience refused bim. It is said that that was only a demonstration on the part of the Holy Father, by way of showing his sense of the conduct of the Sardinian Government; and that, having made it, he caused to be signified to the departing Envoy that, after all, he had perhaps better stop awhile and try the good of a little pa-

The higher clergy of this country have also made a demonstration which can scarcely fail to have some effect on the question. The Bishops of Fos. sano, Mendovi, Pinerelo, Carneo, Alba and Saluzzo, and several other influential priests, have held a conference at Villanovets, the result of which is a memorial to the Holy See, asking it to agree to the Biccardi law, and to all the other reforms proposed by the Government in the relations of the Church and State. The ground on which this is urged is the danger of a schism-there being, according to the memorial, (and according to fact, as I know) a large body of the clergy who go with the Govern' ment and are decidedly for reform. Copies of this memorial have been sent to prelates and priests not present at the Conference, that such as think best may sign it.

It is only six menths since these same men held a conference at which they joined in a protest against this very law and besought the opposition thereto of the See of Rome. Such a complete conversion in so short a time excites distrust : the liberal journals see in it a trickish maneuver, though they cannot say exactly what is concealed behind it. For my part I incline to believe it genuine and to think these Bishops have opened their eyes to the dangers into which they have plunged their Church by their unwise resistance to the spirit of the times and the will of the nation.

Archbiahop Franzoni is still in prison, but hasn't a bad time of it according to all accounts. He has there his own cook who gets up for him dinners which would make the mouth of an epicure water -not a bad thing for one who has vowed to despise the good things of this life and the delights of the flesh, in order to devote himself exclusively to eternal realities and the cure of souls, like a true servant of Him who had not where to lay his head. Alas, how far and how readly the priesthood of all Churches depart from their own teachings, to say nothing of the word and the spirit of the Master whose dostrine they forget to illustrate!

Yours, M. O

News from Texas.—The French side of the New Orleans Bee contains the following: "We had the pleasure yesterday to meet Col. J. W. Walton, the envoy extraordinary of the General Government to the Governor of Texas for the purpose of informing him of the passage of the bill in relation to the limits of that State. The Colonel informed as the side of the State. informed us that this measure was very popular there, and that it would be approved by a large majority. The Governor received Cal. Walton with every possible regard, and declared to him that he would interpose no obstacle to this just and equitable compromise. This proclamation of the Governor, convening the Legislature is extraordinary session, much have been issued by this time.

Minemachur etts Whig Nomination for Congress. Gorrespondence of the Friump. Brockskings, Mass. Wednesday, Oct. 9, 1850.

T'de Whigs of the Seventh Congressional District Leet in Convention at Hipsdale, to select a successor to the Hon. Julius Rock well in the 32d Con. gress. It was numerously attended, and a more solid and discerning body of Whig yeomanry I have seldem seen. Justly did Mr. Rock well express a feeling of honest pride in his constituency.

Several candidates were in the field; but on the first ballor, the choice fell upon Col. J. Z. Good RICH, of Stockbridge, who was then unanimously declared to be the nominee for the next Congress. The Whig party may rejoice in the result, since, if elected, (and we mean to do it triumplantly) Col. G. will prove a valuable accession to the present able representation of our State, and a worthy suc-

and J. H. Boyn for Member of Congress. The and J. H. Boyle for Member of Congress. The resolutions a fillianed in strong forms the original faith and platfam, viz.: A Protective Tariff, River and Harbor Improvements, Opposition to Extension of Shavery in favor of positive probibilities by Congress, regretting the exclusion of the Jeffer somian Provise from the Territorial bills; in favor of the admission of New-Mexico and Usah as

racy against human liberty, of which HANLET was the first victim. There can be no doubt that the direct and immediate effect of this law is going to be greatly to augment the intensity of the anti-Sigvery sentiment in the Northern States, and that it will do so the more just in proportion to the vigor with which the Southern slaveholders prosedeed fear agitation, let them remain very cautiousy at home. That will be the very best method to preserve peace and harmony, and all that. A few more such visits as that of the captors of Hamlet to the Free States will inspire a spirit in a large portion of the community here which it will be difficult to restrain.

Elections -The following list exhibits the elections to come off the present year in the States mentioned, and the political character of the pres-

en Congressional delegations :				
States		Whig.	Oppos	E.S.
H th Carolina	Oct. 14	-	7	000
Il ir oly	Nov. 5	-1	6	-
